Our History

MAK Network Solutions started with team of 3 from a home office. With hard efforts and committed services, MAK quickly became successful in network consulting and services.

MAK moved to ALQuoz Industrial Area 1 in Dubai, in a large 3500sqf office and 7000sqft warehouse. They announced the availability of the latest network support, which accommodated the industry's shift toward disaggregated models and provide great network choices to support all small to medium-sized enterprises (SMEs) and households.

2018

MAK started serving businesses of all sizes, Govt. projects, and schools with 100% network performance management capabilities. With top-notch network consulting and support, MAK Network Solutions became the leading IT Company based in Dubai.

2019

With 368 completed projects, MAK rolled out more security solutions into its operations to support broader customers across UAE. MAK strengthened its operations team to meet the goals of UAE's ever-growing client base.

2020

With 1000+ completed commercial and residential projects, MAK has become one of the leading network solutions and consulting providers in UAE. They also introduced AV Wall and EV charging solutions into their services.

2021

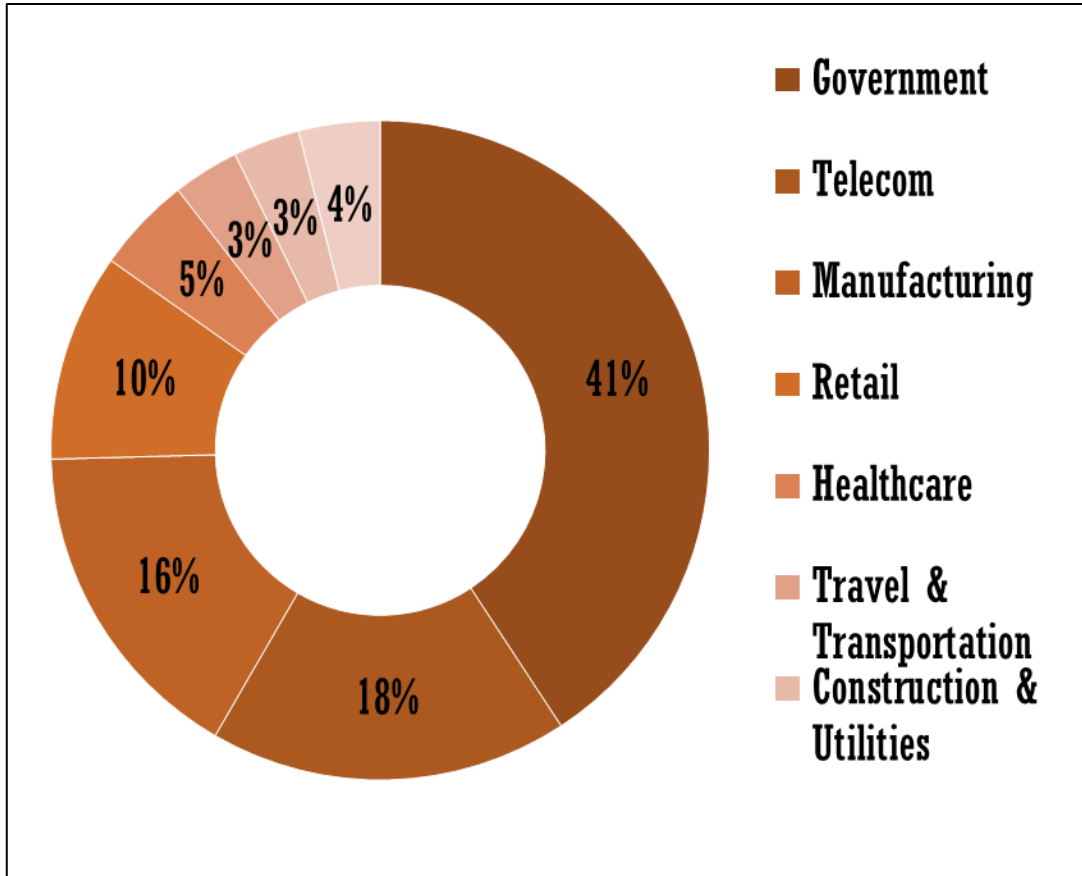

Many businesses got affected by the COVID in UAE As a result, many of them started working from home. This created a strong demand for home Wi-Fi. To overcome the COVID challenge, MAK remained a sigh of relief to clients through on-demand and 100% satisfactory Wi-Fi and networking solutions to homes and schools even in lockdowns.

2022

UAE IT Market

Emerging verticals growing faster

100% = USD 308 billion

Future Expansions

*Government and commercial Cyber security:
*Revenue in the Cybersecurity market is projected to reach US\$173.50bn in 2023.

2023

- Comprehensive Commercial Annual Maintenance contracts:
- The global inspection, repair, and maintenance market size was valued at 40.25 billion in 2021 and is projected to grow to 72.46 Billion by 2029.
